XML ECG Directory Scanner

(available in English only)

Click on a blue button to select a file

This software is provided as-is, without any express or implied warranty. In no event shall Philips Medical Systems be held liable for any damages arising from the use of this software.

The XML ECG Directory Scanner application scans a selected directory for any Philips ECGs in XML format. The identified XML ECG files are then moved to a selected destination directory for processing.

The XML ECG Directory Scanner application operates with Microsoft XML Core Services (MSXML 4.0 library) version 4.0 or higher, and with Microsoft .NET Framework 1.1. Click the buttons below for more information.

More Info — Click to read the program documentation as a Readme.txt file

More Info — Click to run the setup.exe installer

More Info — Click to read the program documentation for the Microsoft MSXML 4.0 Service Pack 2 program

More Info — Click to run the Microsoft .NET Framework 1.1 installer
